Alyona Anikeieva
Frontend Developer

Summary

3,5 years ago I got acquainted with web developing. And since then it has become my passion. Therefore, I easily adapt to new challenges. I can learn new technology for very short time if it's needed for a project.
I had experience with projects written in Angular 7 and AngularJS. Also I created from scratch and released google chrome extension. By the way, I proceed study and work on my own projects to improve and extend my skills

Skills

- Programming languages: JavaScript(ECMAScript 2019), TypeScript;
- JavaScript frameworks and libraries: Angular 2+(Angular elements, Angular Material), AngularJS, RxJS;
- Object-Oriented Programming (OOP), SOLID, BEM;
- Front End technologies: HTML(HTML5), CSS(CSS3, CSS Grid, Flexbox, CSS Animations, SCSS/Sass);
- Had experience with: Node.js(npm, Socket.IO, Express), MongoDB(Mongoose);
- Git, Webpack, Gulp, Babel;
- Editors/IDE: WebStorm, Sublime Text, Atom;
- Trello, Jira, Slack;
- Graphics editors: Avocode, Adobe Photoshop, GIMP, Figma;
- OS: Ubuntu;
